

DISCOVER THE HURRICANE ADVANTAGE

Corvette Hurricane Series CUSTOM A/C, HEAT AND DEFROST SYSTEM

In-dash Air Conditioning, Heating, and Defrost Combo, mounts behind the dash reinforcement bar with no loss of the glove box. System includes reproductions of right and left factory air ducts. Custom integrated switching using original factory heater controls offers an original appearance without adding additional holes in dash or console. Unique design provides tri-level cold or warm air flow and easily out performs the original GM factory AC & heater system.

This system offers outstanding performance and authentic appearance for the discerning midyear Corvette owner.

Available with an original GM A-6, Sanden Style Compressor, or Pro6TEN bolt-in A-6 Replacement.

COMPLETE A/C SYSTEMS

	w/PRO6TEN Compressor	w/ A6 Compressor	w/ Sanden Style Compressor
1963-65 Complete System.....	CAP-1065T.....	CAP-1065.....	CAP-1065S
1966 Complete System.....	CAP-1066T.....	CAP-1066.....	CAP-1066S
1967 Complete System.....	CAP-1067T.....	CAP-1067.....	CAP-1067S

INSIDE PACKAGE

1963-66 Inside Package.....	IP-1065
1967 Inside Package.....	IP-1065

Inside Package Includes: Hurricane Unit, Wiring Harness, Integrated Controls, Replica A/C Vents, Duct Hose, and Necessary Hardware.

Complete Package Includes: Inside Package, Compressor, Compressor Mounting Brackets, Custom Condenser, Receiver Drier, A/C Hoses, Battery Tray and Necessary Hardware.

NOTE: Some cars may require additional crankshaft and water pump pulleys or modification of original manifolds. A-6 Compressor Brackets fit small block V8 engines with short water pump and will require the use of factory ram horn exhaust manifolds. Sanden Compressor brackets may not work with headers. Big block engines require a Sanden compressor or an additional charge for factory style A-6 compressor brackets.

Information Required to Order:

Inside Package
Vehicle: Year

Complete Package
Engine: Size, Year, Make
Water Pump Length: Short or Long
(Chevy V8 Engines)
Alternator Mount: Driver Side or
Passenger Side
Refrigerant Choice: R-12 or 134a

Optional System Upgrades

UG-21-CHRChrome Compressor
UG-21-POL Polished Compressor
(Only available w/ Sanden Compressor)
