STARTER SOLENOID

Heavy Duty · Ford Style · Black

PART NUMBER
QRP50-430

OVERVIEW

A starter solenoid lives in the worst environment on the car, taking dirt, heat, and vibration from every direction. This Ford style solenoid is chosen by racers because it keeps working after cheaper units quit. A flat base makes mounting straightforward, and the unit adapts easily to a remote under hood starter switch or a timing light hook-up.

Use 5/16 Inch terminals on the large posts and #10 on the single small post. Black finish.
